

Workshop Outline

"Your Project Management Knowledge Connection"

Collaborators In Knowledge Inc. | E: learning@ciki.ca | W: www.ciki.ca

OVERVIEW

You've just been assigned as project manager for a daunting project. Your success depends on your ability to manage key issues that cause conflicts through the project life cycle: scoping, scheduling and costing. If you fail to plan these issues, you plan to fail.

In this workshop, you will learn practical tools and techniques for monitoring and balancing these and other key project constraints. The objective is to help you develop workable plans and processes that meet stakeholder needs, while keeping scope, time and budget on track. The workshop is aligned to the Project Management Institute's (PMI®) standards.

AUDIENCE

This workshop is intended for Project Managers or others who are currently or about to be involved in projects of any size and type. It is also for experienced Project Managers who want a refresher on project management concepts, tools and techniques, in order to enhance their ability to effectively manage projects. The workshop is very hands-on, hence we recommend limiting it to a maximum of 16 participants.

BENEFITS

- Understand the practical planning challenges associated with project scope, schedule and budget control
- Learn how to resolve key causes of poor requirements gathering
- Become familiar with the tools to shorten & compress schedules
- Analyze & determine where the risks are in schedules using a network diagram
- Acquire the skills to increase accuracy of time and cost estimates
- Understand the most accurate performance measurement method for progress reporting
- Learn change control to avoid schedule and cost overruns
- Balance project scope, time and cost to increase customer satisfaction

FORMAT

The hands-on format features interactive discussion, action-learning and team simulated exercises. You will be grouped into teams that will work together in “real-world” project environments. Each team will use the tools and techniques presented in the workshop, enabling you to experience the process of collaborative planning and see its effectiveness firsthand. In addition, hand-outs are provided for reference, dialogue sessions and reviews are conducted for experience and idea sharing, and guided feedback from the Workshop Leader to reinforce learning. This format will enable you to immediately apply the skills back at work.
